Service Bulletin – 3/21/2016

Bulletin - 2016-2

Affected Part Numbers – iPad Legend App Version 1.3

Overview – It has come to our attention that there is a problem with the iOS app version 1.3 for the Legend. The app will not allow the iPad to connect to the AGST410 ECU. The iPad will appear to connect to the Legend ECU, but the app will not update. See screen shots below. All iPads that download version 1.3 will have this problem.

To get your Legend system working with the iPad:

- Visit www.agtron.com to download version 1.5 to your iTunes library

OR

- Wait for iTunes to update the app to version 1.5 and update your iPad. Agtron will release updates when this happens.

If you have any questions or concerns regarding this service bulletin do not hesitate to contact Agtron Customer Service
